

Cleanroom/ESD Packaging Tapes

Conductive Grid Tape (OS0601NUP)

- Designed specially for ESD environments
- The conductive grids are embedded between the two anti-static layers
- Surface resistivity: $10^6 \sim 10^9 \Omega$
- Applications: Use for static sensitive packaging

Cleanroom Vinyl Tape (OS0601KON)

- Abrasion & moisture Resistant
- Unaffected by most chemicals
- No residues
- Coated in PE
- Applications: For ESD and cleanroom environments

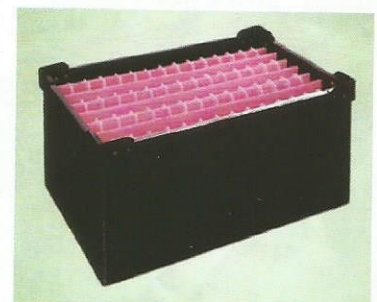

Hazard Warning Tape (PK0107YDD-000)

- Made from OPP PVC as base materials
- Withstand high temperature $-5 \sim 100^\circ\text{C}$
- Excellent sticking ability, durable, bright and eye-catching
- Applications: For floor marking & hazard warning to designate critical areas in cleanroom

Heat Resistance Tape (PK0107YDD-001)

- Heat resistance up to 400°C , resist to 8000V, strength of adhesion 750G/25mm
- Specifications: Thickness 0.06mm length 33m

ESD Cardboards (PK0203LHH-01)

ESD Cardboard Box (PK0203LHH-02)
