

Sticky Cleaning

Sticky Mats

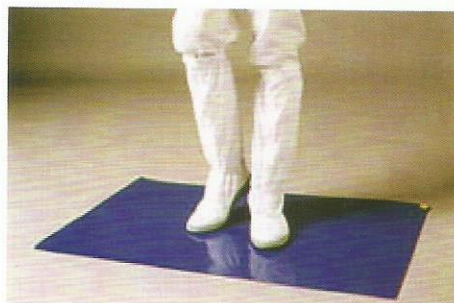

Made from polyethylene film with adhesive

Prevent contamination from shoe

Usage parameter: Semi-conductor, electronic, pharmaceuticals, Operation theater, etc

Product specification: various sizes, colours and styles

Code	Measurement
CMP1836	30 sheets, 18"X36"
CMP-2436	30 sheets, 24"X36"
CMP-2645	30 sheets, 26"X45"

Sticky Mat

DCR Roller

DCR Roller is designed to remove contamination from printed boards and other flat items. The roller can be refilled

Usage parameter: Especially for BLU & PCB industry use

Product specification:

Code	Measurement	Packaging
DCR-CMP4	4"	1pcs
DCR-CMP6	6"	1pcs
DCR-CMP12	12"	1pcs

DCR Pad

DCR Pad has the special adhesive to remove the protective layer from the top sheet of the waste pad. Especially it is using in the BLU & PCB Industries. It comes in 2 sizes

Usage parameter: Especially for BLU & PCB industry use

Product specification: Detail in Company official website

Specifications

Code	Measurement	Packaging
CMP240330	240mm*330mm	50sheets/book 5books/carton
CMP165240	165mm*240mm	50sheets/book 5books/ carton

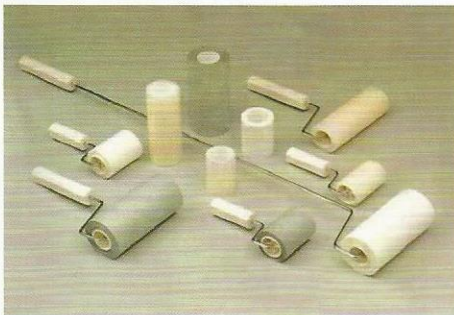

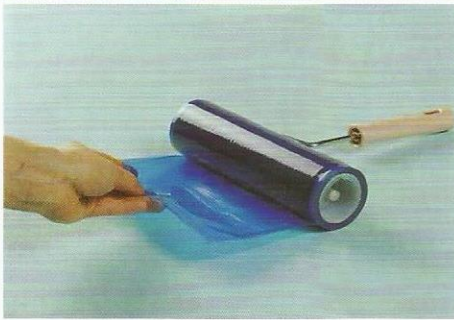

DCR Hand Held Cleaner & Stick Cleaner

KM DCR Hand held & Stick Cleaner is used for cleaning dust in narrow gap on PCB, which can be difficult to remove with general cleaning. This butyl roller manufactured with high technology can get rid of minute dust on surface of PCB as maintaining its viscosity. There are 2 types to choose from. Washable for reuseable, durable

	Code	Specification
Replacable Films	KMSR-100	100mm*20m standard model
	KMSR-200	200mm*20m standard model
	KMSR-110	100mm*20m antistatic model
	KMSR-210	200mm*20m antistatic model
Roller Handle	KMSH-01	160mm*1050mm T-Bar Handle
Roller Handle	KMSH-02	160mm*290mm T-Bar Handle

Sticky Cleaning & ESD Solvent Dispensers

Clean Rollers

Clean Rollers consist of rolled sticky film and handle for removing of contamination at industrial application. By specially formulated glue applied on film, the Clean Roller keeps proper adhesive strength enough to trap fine dust to be removed, while leaving no adhesive residue on the applied area

Application: Can be used in ESD sensitive area, trap dust particles

Product specification:

	Code	Specification
Roller (WHITE)	WP0401GTY-W04	4"
	WP0401GTY-W06	6"
	WP0401GTY-W08	8"
	WP0401GTY-W10	10"
Roller (BLUE)	WP0401GTY-B04	4"
	WP0401GTY-B06	6"
	WP0401GTY-B08	8"
	WP0401GTY-B10	10"
Roller Handle	WP0401GTY-004	4"
	WP0401GTY-006	6"
	WP0401GTY-008	8"
	WP0401GTY-010	10"

ESD Solvent Dispenser

White (WP0701CPP01)

BLUE (WP0701CPP02)

PINK (WP0701CPP03)

For highly evaporative solutions, the bottle is made from PVC and the top from air-sealed stainless steel cap

Surface resistivity: 10^9 - $10^{11}\Omega$

Usage parameter: For Electronic industry

Product specification: 120ml 180ml 240ml
