

**AD07 Heavy-duty cut-resistant Kevlar glove**

**AD10 Middle-duty cut-resistant Kevlar glove**

**AD13 Light-duty cut-resistant Kevlar glove**

**重型芳纶针织耐切割手套**

**中型芳纶针织耐切割手套**

**轻型芳纶针织耐切割手套**

Cut-resistant Kevlar glove

Feature: The gloves are made from aramid fiber, and seamlessly knitted by 7G, 10G or 13G machine according to its heavy or not. The palm and fingers of the gloves could be separately coated latex, nitrile or polyurethane. It's a kind of high-tech gloves with the function of anti-knife cutting, anti-stab, anti-tearing and anti-wear, comfortable and flexible. It's widely used in the areas of automobile industry, machinery industry, construction projects and railway sectors for purpose of labor protection.

手套是由芳纶纤维针织而成，根据厚度要求不同，分别由7针，10针，13针机器针织而成。

In accordance with EC Council Directive 89/686/EEC technical standard;  
Level II of anti-stab ,level III of anti-cutting, level IV of anti-tearing, level IV of anti-abrasion

STYLE	DESCRIPTION	
AD07	Heavy-type Cut-resistance aramid fiber glove, 7gauge seamless knitting,heavy weight and durable	重型芳纶耐切割手套，7针针织
AD10	Middle-type Cut-resistance aramid fiber glove, 10gauge seamless knitting,heavy weight and durable	中型芳纶耐切割手套，10针针织
AD13	Light-type Cut-resistance aramid fiber glove, 13gauge seamless knitting,heavy weight and durable	轻型芳纶耐切割手套，13针针织
